SUMMARY

I am a Computer Programming graduate and currently a Software Engineering student. I am developing myself in the field of data science and working to enhance my technical skills and expertise in this area. With my analytical thinking skills and passion for learning, I aim to play an active role in data analysis, modeling, and software development processes. I am seeking voluntary internship opportunities in data science to gain practical experience and contribute to my career growth.

EXPERIENCE

Intern   **January 2022 - February 2022**
- Alarm and Security Systems

EDUCATION

Istanbul Sabahattin Zaim University   **September 2022 - Present**
Software Engineering
- 3rd Year
- Current GPA: 3.22

Istanbul Kültür University   **August 2020 - September 2022**
Computer Programming - Graduate
- GPA: 3.59

CERTIFICATIONS

- **Python Programming for Data Science (Miuul)**
- **Recommendation Systems (Miuul)**
- **Feature Engineering (Miuul)**
- **Measurement Problems (Miuul)**
- **CRM Analytics (Miuul)**
- **Basic Linux (Turkcell)**

PROJECT

- **Video Recording Analysis**

This project is based on text analysis of student screens recorded during online exams.
The goal is to capture given keywords from student screens and present them as a report.
